

# Childhood Dreams

ARY

I dream a hundred dreams a minute  
And deep inside what I construct  
So there's no use, don't even bother  
Tonight is not the night for us  
I have a million shapes a decade  
I'm pass the point of no return  
So don't even call, don't even bother  
Cause I can make your mind concern I'm running faster than before  
Beats and tunes and lovers  
Can not hold me back no more  
I work alone  
Is this all I'll ever know?  
And I remember all my childhood dreams  
I find it hard to get them out of my mind  
And I remember all my childhood dreams  
I find it hard to get them out of my mind  
And I remember all my...So as the night time hits my window  
Sudden move to gain the lights  
Cause I'm not even close to done yet  
Well I won't leave unto in spite  
And when the dawn emerges slowly  
I realized the night has passed  
The suns I made were visionary  
Looking forward to go back I'm running faster than before  
Beats and tunes and lovers  
Can not hold me back no more  
I work alone  
Is this all I'll ever know?  
And I remember all my childhood dreams  
I find it hard to get them out of my mind  
And I remember all my childhood dreams  
I find it hard to get them out of my mind  
Hmm-mmm-mmm And I remember all my childhood dreams  
I find it hard to get them out of my mind  
And I remember all my childhood dreams  
I find it hard to get them out of my mind
