

# Young Once

Sam Hunt

She said, "We're only young once"  
In the back of a Chevrolet  
"Hey Now" on the radio  
Ashes in the tray  
You can only get drunk once  
On this kind of naivety  
Who knows how long we're always gonna feel this way? Time goes by and it'll dull the razor  
And we don't know why  
Let's worry 'bout that later  
'Cause if we never do nothing else stupid  
If we never do nothing else stupid  
At least we know someday  
That we can look back and say  
We were young once  
We were young once  
We were gung-ho, singing in the sun once  
Backroads in the wild, on the run once  
Cheap thrills, doing things in the wheat fields  
We were young, we were young, we were young once  
We were young once She said let's get a cheap hotel  
And make out in the hall  
I'll cover up your mouth  
And play it cool if my parents call  
Let's get lost tonight  
Before the world's too small  
Someday we're gonna know too much to know it all  
Time goes by and it'll dull the razor  
And we don't know why  
Let's worry 'bout that later  
'Cause if we never do nothing else stupid  
If we never do nothing else stupid  
At least we know someday  
We can look back and say  
We were young once We were young once  
We were gung-ho, singing in the sun once  
Backroads in the wild on the run once  
Cheap thrills, doing things in the wheat fields  
We were young, we were young, we were young once  
We were young, we were young, we were young once  
We were young, we were young, we were young once We were young once  
We were young once We were young once  
We were gung-ho, singing in the sun once

Backroads in the wild on the run once  
Cheap thrills, doing things in the wheat fields  
We were young, we were young, we were young once  
We were young, we were young, we were young once  
We were young, we were young, we were young onceWe were gung-ho, singing in the sun once  
Backroads in the wild, on the run once  
Cheap thrills, doing things in the wheat fields  
We were young, we were young, we were young once  
We were young, we were young, we were young once
