

Meanwhile

Fool's Garden

You've changed the world around you
Is it better now?
No starving anymore
Hey, is it better now?
Your helpless little fingers
They've never been as calm as now
Your trembling is over
It's better now
If there was a light in the dark
I would try to wake you up
Could I look into your eyes
While another baby cries
Forgive me
I see the children in the playfield
You had to leave your place
Your silent accusation
They took away your face
Your little life was over
before it ever had begun
Your little wings were broken
You've never reached the sun
If there was a light in the dark
I would try to wake you up
Could I look into your eyes
Would you take my alibis
Forgive me
Ev'rybody knows it
Repression is the way
You're not the child next door
You're much too far away
But there's no light in the dark
So I won't try to wake you up
I couldn't look into your eyes
In this world of alibis
Forgive me
