

# Popsicle

## New Kids On the Block

(Chorus)

You're my pop-si-cle!

From the very first time I met you, Girl, you captured me

You're my pop-si-cle!

All I know is that you make me feel so fancyfree. Gonna love you for a lifetime

And I know you're gonna love me too

You make me feel, feel so real

And it feels so good, through and through Sweeter than candy

Better than cake

And everytime we kiss

It feels oh so great Girl, can't you see?

You're the one, you're the one for me!

(Chorus) When I call you up on my favorite party line

You sound so sweet, Girl. You're blowing my mind

Our love is much better than any other I know

And it keeps on growing, more and more Girl, can't you see?

You're the one, you're the one for me! (Chorus) POP POP POP POP POP POPSICLE! Hey, hey,

little girl with your pretty dress on

I've been wanting you to want me for my whole life long

You knock me off my feet, girl, you're a super treat

When I see you in the street you make my heart skip a beat You're the one who makes me feel

alright

When I look into your eyes, you know you're really out of sight

I'm for you and you're for me

We could stay together so easily

POP POP POP POP POP POPSICLE! Girl, can't you see?

You're the one, you're the one for me! (Chorus ) POP POP POP POP POP POPSICLE!

(repeat to fade out)
