

# The Way We Are

Alesha Dixon

Every move we make, call it a mistake  
Lookin' at a wall like a prisoner in chains  
Tell us that we're wrong, tell us what we want  
Throw us in an ocean that I know we don't belong  
That's when the passion comes in (Comes in for us)

That's when we fight and we win  
We are the miracle, lightning bolt, love is so  
Just the way we are  
Just the way we are  
Just the  
Just the way we are  
Just the way we are  
Just the  
Just the way we are  
Who we gonna be?  
Nobody can tell

But you're tryna buy the script on me, that's made for someone else  
Changin' up the rules, rules I gotta break  
For that time that's inside of me  
Will always be a faith  
That's when the passion comes in (Comes in for us)

That's when we fight and we win  
We are the miracle, lightning bolt, love is so  
Just the way we are  
Just the way we are  
Just the  
Just the way we are  
Just the way we are  
Just the  
Just the way we are  
Show them your light  
Don't turn them down  
It's not their right  
To come and criticize  
Show them your light  
It's a miracle

Love is so, just the way we are  
Just the way we are (Never change who we are)  
Just the way we are (Stay the same, just the)  
Just the way we are (Never change who we are)  
Just the way we are (Stay the same, just the)  
Just the way we are (Never change who we are)  
Just the way we are (Stay the same, just the)  
Just the way we are (Never change who we are)

Just the way we are  
All I'm asking is you to love that  
Just the way we are
