

Call Me Home

Galantis

I was born to run, but not down that road
Sweetest sound took me away from you
Oh oh, I was in you, your heart was in me
We were lovers, babe, I believed
We were in love, we were in line
We were strong but we withered and died Now you're calling me, calling me home
Pulling me out of the crowd
Calling me, calling me home
Out of my darkest hour
Say it is time to come home
We don't have to hurt no more
You call me home
You call me home
You call me home
You call me home
You call me home A beautiful rose but it's under the aisle
You're pulling a feeling, baby, I'll wait this time Oh oh, I was in you, your heart was in me
We were lovers, babe I believed
We were in love, we were in line
We were strong but we withered and died Now you're calling me, calling me home
Pulling me out of the crowd
Calling me, calling me home
Out of my darkest hour
Say it is time to come home
We don't have to hurt no more
You call me home
You call me home
You call me home
You call me home
You call me home
You call me home
