Going Home

Cosmic Gate & Emma Hewitt

We've been searching for so long to find the place where we could belong we always dreamed of better things to come and turned our faces towards the sun we follow the light that we see in the dark and keep on going till it catches spark I believe there's a change to come

we'll never know if we never runAnd all the signs are surfacing now again on the winding road

Don't turn around we're going one way

the time is right we're going home

and now you're in my mind always

forever young and forever on There's a distance to go from here

it was never the weight of the world we feared

I'd be with you and right beside

ever wrong and through the nightAnd all the signs are surfacing now again on your winding

roadDon't turn around we're going one way

the time is right we're going home

and now you're in my mind always

forever young and forever onDon't turn around we're going one way

the time is right we're going home and now you're in my mind always

forever young and forever on

Don't turn around we're going one way

the time is right we're going home

and now you're in my mind always

forever young and forever on
