

90s Music

Kimbra

I'd been driving round in my car
Rolled down the window beside ya
Blaring out loud of the broken speaker
(Everyday be listening to 90's music)From that day we'd only be with one another
Gang hangs, bust the jams, meet my mother
There was nothing that could come between us
Teens tearing up the streetsEveryday be listening to 90's musicStones at my window, like
Romeo

Shot by Cupid with a bow and arrow
Old school, make me drool, roses at my doorEveryday be listening to 90s music
Romance from the book, sun-drunk desire
Summer night star-gaze, hands to the sky
You moved to the burbs, many words you meantCame back in a year and it just felt
differentSome old song I know

Won't get out of my head
Though the feelings gone
The love ain't disappearedBut I've been missing what you love like, love like
I've been missing what you love like, love like
I remember what you love like, love like
I've been missing but it don't mean we can't spend
Time listening to...Everyday be listening to 90s musicMJ & Mariah

Nirvana & Aaliyah
R Kelly & Mary Blige
TLC & Left Eye
Out to find me a house with a white picket fence
Wedded, tied to a new life present tense
Stopped at the drive-in of our spring fling
And then the radio played that song we used to singHey - sometimes I think about it

You know I think about it
Hey - sometimes I think about it
After all these years it just felt differentSome old song I know
Won't get out my head
Though the feelings gone

The love ain't disappearedBut I've been missing what you love like, love like
I've been missing what you love like, love like
I remember what you love like, love like
I've been missing but it don't mean we can't spend
