

I Tried (Don Corleon Remix) [feat. Gentleman]

SOJA

I cant forget that day I got you
There's something about you,
I just watched you
Like something I tried but I forgot to...
It's not that i want to
It's just that I lost you Thoughts of you run over in my mind and
I try so hard to just press rewind to find
Something I held maybe one time and I... All I do is think x3 But thinking about you never
brought you back,
So far from you in my mind I go.
But my heart hurts and brings me back
Before i Know
And All i do is think x3 Cuz I tried to change
And I tried to change
And I tried to stay,
I tried to stay the same
I tried to work
And tried to work
I tried for her, I tried. I cant forget that day I got you
There's something about you,
I just watched you
Like something I tried but I forgot to...
It's not that i want to
It's just that I lost you
All I know, the more that I think about it is
The deeper the doubt it is
Unsure what this emotion promises,
What kind of pain and strain it is
So many times i've done that before,
Told myself that I should know more.
Seek and get past it,
Now that I lost it
Theres is no bridge so how can I cross it
Down so low in the valley of decision,
Clouded mind disturbing my vision,
Bleeding heart affecting my vision,
Compromising on this love mission and
No matter how me try
Still she can't just satisfy,
How could the Truth be a Lie
Water drop out of me eye
Cuz me see the well run dry I tried

Cuz I tried to change
And I tried to change
And I tried to stay,
I tried to stay the same
I tried to work
And tried to work
I tried for her, I tried. I can't forget that day I got you
There's something about you,
I just watched you
Like something I tried but I forgot to...
It's not that I want to
It's just that I lost you. Memories of you keep flashing through my mind
Can't keep it up and I can't resign,
Desolation street and I can't see no sign,
Got to rise above, to cross the border. It's not that I want to
It's just that I lost you
I can't forget that day I got you. Memories of you keep flashing through my mind
Can't keep it up and I can't resign,
Desolation street and I can't see no sign,
Got to rise above, to cross the border. I tried
Cuz I tried to change
And I tried to change
And I tried to stay,
I tried to stay the same
I tried to work
And tried to work
I tried for her, I tried.
