

# No Way

David Gilmour

There's no way I'm going to let go  
There's no way, because it's my show  
I'm hanging on for a little while  
I won't go down easy, that's not my style I'm all tied up, tied up in a knot  
And I can't decide just what it is I've got  
Did I get out of touch? Did I lose my way?  
I've not forgot, no, not a single day Now you might believe I'm not a happy man  
Putting myself apart from the common clan  
Well, the boat we're sailing, we have a leak or two  
But I know it's sound, like me and you  
So there's no way I'm going to let go  
There's no way, because it's my show  
I'm hanging on for a little while  
I won't go down easy, that's not my style
