

When Did You Know

Jamie O'Neal

Did you know when
You were holding me
By that fire in Jacksonhole
That you were gonna let me go
Did you know when
We were flying home
I was falling hard for you
I thought you were the one
Were you only having fun
When did you know
We were looking at forever
How could we be so close
And still not be together
Every dream I believed
Has now come down to just one question
When did you know it wasn't love
When did you know it wasn't me
How can you make a woman feel that way
While you never feel a thing
Why did you do that to me
How can you keep your heart set on freeze
While you set my soul on fire
I don't understand it yet
I'm still trying to catch my breath
When did you know
We were looking at forever
How could we be so close
And still not be together
Every dream I believed
Has now come down to just one question
When did you know it wasn't love
When did you know it wasn't me
Oh, every dream I believed
Has now come down to just one question
When did you know it wasn't love
When did you know it wasn't me
