

# Open (feat. Moksi & Jonna Fraser)

## Yellow Claw

Let's take a moment and see how far we can explore  
Body to body, a distant we open your door Bottle rockets are blowing, hands are exploring  
Position myself, I like

Whisky makes me controlling, I care for nothing  
Let go and live for a night Tell me nothing, tell me nothing

Show me love right in the open  
Tell me nothing, tell me nothing  
Show me love right in the open  
Tell me nothing, tell me nothing  
Show me love right in the open  
Tell me nothing, tell me nothing  
Show me love right in the open

Tell me

I'll bring the motion, just let it take over your life  
Shoulder to shoulder, we both feel like losing control Bottle rockets are blowing, hands are  
exploring

Position myself, I like

Whisky makes me controlling, I care for nothing

Let go and live for a night  
Tell me nothing, tell me nothing  
Show me love right in the open  
Tell me nothing, tell me nothing  
Show me love right in the open  
Tell me nothing, tell me nothing  
Show me love right in the open  
Tell me nothing, tell me nothing  
Show me love right in the open

Tell me
