

# On My Way (Radio Edit)

Charlie Brown

Move in circles at night  
You've given up the fight  
Like the streets that you're always walking on  
You died inside  
And you don't know why  
So you try to turn the light on But stand up and never say never  
'Cause this life is gonna get better  
Take a breath, shake it off and say  
I'm on my way You been down and feel so fed up  
When they tell you, you might not get up  
Might not be on top of the world but hey  
Here's what you say  
You might work but I work harder  
You might fight but I fight smarter  
Might not be on the top of the world but hey  
I'm on my way  
You might fly but I fly higher  
You're so hot but I'm on fire  
Might not be on top of the world but hey  
I'm on my way ay  
I'm on my way ay  
I'm on my way ay  
I'm on my way  
I'm on my way All alone in your bed  
You tried when you said  
What you said  
Yeah you poured your heart out  
But nothing's changed  
Still a picture in a frame  
And you try but you just can't break out, no But stand up and never say never  
'Cause this life is gonna get better  
Take a breath, shake it off and say  
I'm on my way You been down and feel so fed up  
When they tell you, you might not get up  
Might not be on top of the world but hey  
Here's what you say You might work but I work harder  
You might fight but I fight smarter  
Might not be on the top of the world but hey  
I'm on my way  
You might fly but I fly higher  
You're so hot but I'm on fire  
Might not be on top of the world but hey

I'm on my way So stand up and never say never  
'Cause this life is gonna get better  
Take a breath, shake it off and say  
I'm on my way You might work but I work harder  
You might fight but I fight smarter  
Might not be on the top of the world but hey  
I'm on my way You might fly but I fly higher  
You're so hot but I'm on fire  
Might not be on top of the world but hey  
I'm on my way ay  
I'm on my way ay  
I'm on my way ay  
I'm on my way ay  
I'm on my way ay  
I'm on my way ay  
I'm on my way ay  
I'm on my way  
I'm on my way
