On My Way (Radio Edit)

Charlie Brown

Move in circles at night
You've given up the fight
Like the streets that you're always walking on
You died inside
And you don't know why

So you try to turn the light onBut stand up and never say never

'Cause this life is gonna get better

Take a breath, shake it off and say

I'm on my wayYou been down and feel so fed up

When they tell you, you might not get up

Might not be on top of the world but hey

Here's what you say

You might work but I work harder

You might fight but I fight smarter

Might not be on the top of the world but hey

I'm on my way

You might fly but I fly higher

You're so hot but I'm on fire

Might not be on top of the world but hey

I'm on my way ay

I'm on my way ay

I'm on my way ay

I'm on my way

I'm on my wayAll alone in your bed

You tried when you said

What you said

Yeah you poured your heart out

But nothing's changed

Still a picture in a frame

And you try but you just can't break out, noBut stand up and never say never

'Cause this life is gonna get better

Take a breath, shake it off and say

I'm on my wayYou been down and feel so fed up

When they tell you, you might not get up

Might not be on top of the world but hey

Here's what you sayYou might work but I work harder

You might fight but I fight smarter

Might not be on the top of the world but hey

I'm on my way

You might fly but I fly higher

You're so hot but I'm on fire

Might not be on top of the world but hey

I'm on my waySo stand up and never say never
'Cause this life is gonna get better
Take a breath, shake it off and say
I'm on my wayYou might work but I work harder
You might fight but I fight smarter
Might not be on the top of the world but hey
I'm on my wayYou might fly but I fly higher
You're so hot but I'm on fire
Might not be on top of the world but hey

I'm on my way ay
I'm on my way
