

Notion

Kings of Leon

I got a notion to say what doesn't feel right
Got an answer in your story today
It gave me a sign that didn't feel right, no

...

So don't knock it, don't knock it You've been here before

...

So don't knock it, don't knock it
You've been here before...I just wanted to know if I could go home
Been rambling day after day And everyone says I don't know

...

So don't knock it, don't knock it
You've been here before

...

So don't knock it, don't knock it
You've been here before

...

Got a notion to say what doesn't feel right

...

I just wanted to know if I could go home

...

So don't knock it, don't knock it
You've been here before

...

So don't knock it, don't knock it
You've been here before

...

So don't knock it, don't knock it

...

So don't knock it, don't knock it

...

Don't knock it, don't knock it
You've been here before

...

Don't knock it, don't knock it
You've been here before

...
