

# Bad Girl Takeover (feat. Meek Mill & DJ Khaled)

## Just Ivy

This the takeover, Ivy  
Meek Milly, DJ Khaled  
Let's go I've seen good girls turn bad, for the love of that cash  
Used to ride Impala and now 200 all on my dash  
And I done came up so fast, shorty came up too  
Put her on my team and we fucked the game up too  
Now my good girl, my bad bitch, I came up, ain't have shit  
Them Porsches and horses, a new horse and carriage  
I'm married to the paper, strong bond can't break us  
Your girlfriend said this and that  
But they want to diss so they hate us, shawty  
You know you missing my love, missing, missing my love  
But you know you missed out  
No more good girl, bad girl takeover  
Play good with me, baby I'm a soldier  
No more good girl, bad girl takeover  
No more good girl, it's a bad girl takeover[?] take my love even on the run  
And I'm going on, baby I'm so dumb  
Dumbest thing like the girls that have no fun  
Tried to regroup for ya, you were the only one No love, get money, yeah, get money  
It was all good 'till I had my heart stolen  
Can't fall for the [?]  
And don't get caught up in the hype, caught up in the lights  
I taught you how to ride, daddy daughter with a bike  
Yeah, you was by my side from the morning 'till the night  
Through all the ups and downs you left and we was on to something right  
And they say when a good girl gone, she gone forever  
And you like a lost homie, I should mourn forever  
Through the storm whatever, rain, sleet, hail, snow  
And I just wanna stick together, me and you Velcro, go No more good girl, bad girl takeover  
Play good with me, baby I'm a soldier  
No more good girl, bad girl takeover  
No more good girl, it's a bad girl takeover Why when it's all over, you wanna get back  
I guess it's always like that  
How to keep up, that he has to leave her
