

Come Back To Bed

Trent Tomlinson

Baby I don't care that your hair is soaking wet
Just drop that towel there on the floor
You're looking so good all watery skin
You're making me want you all over again
So climb on in
What do you say?
Let's make the morning last all day Come back, come back
Come back to bed
Don't you even think about getting dressed
I ain't done loving you yet
Baby come back to bed
Might have been an inch of you I might have missed
I think there's a part of you I didn't kiss
It'd sure be a shame
If I let the sun
Take you away girl before I'm done
And I ain't done
Can't get enough
Hey I've been missing you baby since you got up Come back come back
Come back to bed
Don't you even think about getting dressed
I ain't done lovin' you yet
Baby come back to bed Baby come back
Lay down right here
Just let me put my hands on you everywhere
You know I want you
Don't go anywhere
You ain't going anywhere
Baby come back come back
Come back to bed
Don't you even think about getting dressed
I ain't done lovin' you yet Baby come back come back
Come back to bed
Don't you even think about getting dressed
I ain't done lovin' you yet
Baby come back to bed No I ain't done lovin' you yet
Baby come back to bed Baby come back to bed
