

Who Am I?

I See Stars

I'm living breathing proof I feel it leaving me
The earth starts to fade
The life inside of me I find myself doing all the wrong things for all the right reasons
I hear the words you say loud and clear
I just don't give a fuck I'm living breathing proof
That you can turn off your conscious
I'll show you the worst of me
You have me asking Who am I?
I'm a whole lot different than I look on the outside
Let me go, take me back to the place I know
Will I ever be the person I'm supposed to be?
I will never let go
I'm living breathing proof It's safe to say there are many days I live with no regrets
How do you sleep at night? When I'm a living nightmare I feel it leaving me
The life inside of me How do you sleep at night?
When I'm a living nightmare
I'm a living nightmare Who am I?
I'm a whole lot different than I look on the outside
Let me go, take me back to the place I know
Will I ever be the person I'm supposed to be?
I will never let go I'm living breathing proof
Will I ever be the person I'm supposed to be?
I will never let go I'm living breathing proof Who am I? I'm living breathing proof.
