

I Could Never Say Goodbye

[Enya](#)

Night has come
Without my tears
Now I walk alone
You're no longer here
The days turn to years I could never say goodbye
To the sadness in my eyes
You know you are in my heart
But the miles keep us apart
Time moves on
In the falling rain
I still dream of you
And whisper your name
Will I see you once again?
I could never say goodbye
To the sadness in my eyes
You know you are in my heart
But the miles keep us apart I could never say goodbye
