

Older

Band of Horses

Climb the cliff, Tower over all
And falling water, falling waterfall
And after all my plans
They melt into the sand
Yeah you will be there on my mind through all
Don't want to understand why you never get older
It's time to dry off tattered overalls
Impatient waiting, Way to hide a fall
And after all my plans
They melt into the sand
Yeah you will be there on my mind through all
Don't want to understand why you never get older
And after all my plans
They melt into the sand
Yeah you will be there on my mind through all
Don't want to understand why you never get older
After all my plans
They melt into the sand
Yeah you will be there on my mind through all
Don't want to understand why you never get older
And after all my plans
They melt into the sand
Yeah you will be there on my mind through all
Don't want to understand why you never get older
