

# Better Together

Ziggy Marley

So much better when we're together  
So much better when we're together  
I don't know what happened on the way  
How did we not learn from the mistakes  
oh baby  
Yes I must stand up  
Will you come with me  
If I fall down, you can take the lead  
I know you're tired  
I know you're weary  
I know the ways of the world can be scary  
I know it's so much better when we're together  
You and I, I know  
I know it's so much better when we're together  
We've all been there before  
even side of the wall  
We wanted to watch it fall  
She wanted to watch it, you wanted to watch it  
Lift your hands and put your weapons down  
Put them down now  
We all know what makes the world go around  
Now there's a reason for every trials  
and we lean each other for survival  
Yes I'm tired I might a little bit weary  
All the ways from Babylon it's so crazy  
But it's so much better when we're together
