

# Goodbye Fire Island

## Alkaline Trio

Burning on an autumn night  
A piece of me has been set alight  
Moving like a locomotive  
To tear you up and take your wife away  
Coming down like Christmas lights  
Strung up on these walls for countless nights  
Douse my house in gasoline  
Strike a match and walk away, yeah  
Feeding on the fainting models  
Hey, yeah  
White meat festival, yeah  
Hey, yeah  
Ocean filled with plastic bottles  
Hey, yeah  
And tidal waves will wash us all away  
Wash us all away  
I'm turning in this burning wreck  
Shattered windshield, broken back  
Crawling on your arms to safety  
Before the flames take your life away  
Stab me with stiletto heels  
Feed me pills and happy meals  
Leave me here to bleed out slowly  
Smile, spit, and swiftly walk away, yeah  
Feeding on the fading models  
Hey, yeah  
White meat festival, yeah  
Hey, yeah  
Ocean filled with plastic bottles  
Hey, yeah  
And tidal waves will wash us all away  
They left us here to wander  
They left us here to stay  
Our dreams were torn asunder  
Quickly washed away  
Stranded in the ocean  
Lost our only boat  
Abandoned here and broken  
Cost us everything we own Hey, yeah  
Feeding on the fading models  
Hey, yeah  
White meat festival, yeah

Hey, yeah  
Ocean filled with plastic bottles  
Hey, yeah  
And tidal waves will wash us all away  
Wash us all away  
Wash us all away  
Wash us all away
