

# Look At Where We Are

## Hot Chip

From the deep silence of my mind  
Is something I'm trying to find  
When it speaks you know you will hear my name  
Not so complex in design  
But harder to mind  
As I step, in vain  
Won't you come down to my arms  
There's something I'm ready to say  
Would you call, my name  
Look at where we are  
Remember where we started out  
Never gonna be without each others love again  
Look at where we are, are, are  
I need your name  
Remember where we started out  
Never gonna be without each others love again  
Look at where we are, are, are I need your name  
A memory tells us that we're blessed  
But opening up this chest  
I discovered that a heart is lame  
Falling behind what we guess  
But trying to do our best  
Do we stop, do we stop in frame  
Won't you come back to my heart  
There's something I'm trying to say  
Would you call, my name  
Look at where we are  
Remember where we started out  
Never gonna be without each others love again  
Look at where we are, are, are  
I need your name  
Remember where we started out  
Never gonna be without each others love again  
Look at where we are, are, are  
I need your name
