

Heart On Fire (feat. Lennon & Maisy)

Nashville Cast

You were the girl
With the blazin' heart on fire
Free, as a dress
In the breeze
Hangin on a laundry line
In the sunshine
You had the eyes
Saw the beauty in the mess
Love in the moment
On the fly
And you figured out the rest
You were fearless
Who threw the punch
that you couldn't handle?
What came along
And blew out your candle?
Love, gotta light it back up
Maybe it's just yourself
that you're fightin'
Keepin' the shine in
your star from risin' up
Gotta light it back up
Won't let you sink
Like a stone, to the
bottom, bottom
Let me remind you of
the you you've forgotten
It's just a road
It's just a wave
that you're ridin'
I know it's rough
Gotta get back up
Light it back up
Who threw the punch
that you couldn't handle?
What came along
Blew out your candle?
Love, gotta light it back up
Maybe it's just yourself
that you're fightin'
Keepin' the shine in
your star from risin' up

Gotta light it back up
Won't let you sink
Like a stone, to the
bottom, bottom
Let me remind you of
the you you've forgotten
It's just a road
It's just a wave
that you're ridin'
I know it's rough
Gotta get back up
Light it back up
You were the girl
With a blazin' heart on fire
