

Big Truck

Coal Chamber

Too small, too small don't compromise
So have fast, too fast don't realize
Have hand on wheel, set the sights, drive with me Too fast, too fast don't realize
So have fast, too fast don't recognize
Have hand on wheel, set the sights, drive with me Moving - motion
Said move, said move it Somebody better come and drive me Big trucka Ain't no grave gonna
hold my body down
Ain't no grave gonna hold, hold my body, hold my body
Big truck, come on
