## The Soft Pack

Could you describe what you feel of doing  
From my side it seems to me that you're screwing every one  
All around you, all around you!  
But you be kind enough to find  
The time to return, all the time that I spent  
Right besides you, right besides you! It's not the kind of thing that I like to do  
Straight from the truth to... at you  
I wish you were safe  
I wish you were safe until I...  
Do you remember anything I said?  
Why is it... through your head  
I wish you were safe until I...
