By Your Side (feat. RAYE)

Jonas Blue

Let's go out and be wild Do it while we can (do, do) Runnin' free in the world We got all weekend (do, do) Tear it up, tear it down Gettin' lost in the sound of our hearts beating Take me here, take me now Getting lost in a crowd with youUp, all night I waited for you all my life Hold my hand and keep me close I'll never let you go No not tonight Keep me by your side Keep me by your side Keep me by your Side, side, side, your Side, side, side, your Side, side, side, your Side, your-your-your-your-your Side, side, side, your Side, side, side, your Side, side, side Keep me by your Side, side, side, your Side, side, side, your Side, side, side, your Side, your-your-your-your-your Side, side, side, your Side, side, side, your Side, side, side Keep me by your Scattered hearts, broken glass I don't feel a thing (do, do) Because I'm frozen in time When you're next to me (do, do)Tear it up, tear it down Gettin' lost in the sound of our hearts beatin' Take me here, take me now Gettin' lost in a crowd with youUp, all night I waited for you all my life Hold my hand and keep me close I'll never let you go No not tonight
