

Hot Stuff

Krokus

I've been travelling down the road
With my friends all across the nation
And I met a lot of girls
Help me live my fantasies Down in New Orleans
I found the right combination
She made me feel like a king
Boy she was so good to me I felt her eyes follow me across the stage
Touch my body with a tiger's gage
I slipped into her dream
Didn't even say goodnight
In the morning she just told me
In a letter
I got love to suit you babe
Guaranteed to make you temperature rise
I don't want to lose you babe
How I hate to have to say goodbye Back on the road
Another show, hot stage, new city
Love connection
Slowly fading away I felt her eyes follow me across the stage
Touch my body with a tiger's gage
I slipped into her dream
Didn't even say goodnight
In the morning she just told me
In a letter I got love to suit you babe
Guaranteed to make you temperature rise
I don't want to lose you babe
How I hate to have to say goodbye
I got love to suit you babe
Guaranteed to make you temperature rise
I don't want to lose you babe
How I hate to have to say goodbye
