

Shine on Us

Bethel Music & William Matthews

I was stumbling in the darkness
Couldn't see my hand in front of me
I was sending up an sos
When all was lost you came running Nowhere to run
No place to hide
You sent the shadow scattering
When through the cloud
A piercing light
And then I saw you
Shine, shine, shine like the sun
You're waking hearts to life
And you've only begun
Every fear, every doubt disappears
When you shine on us
(We wanna see you)
Shine, shine, shine like the stars
You are the first love to open my heart
Every hope, every dream comes alive
When you shine on us Heart of stone into a prism
Light of heaven flowing through me
Black and white to vibrant color
I'm reflecting your beauty
I'm overwhelmed
I'm overwhelmed
Just standing in your presence
Your face illuminates the sky
And then I saw you
