Your Body

Keith Urban

Come on get ya put it on me baby
Come on get ya put it on me babyAll the burning lights
Go rushing by
I'm driving like a wild man out of the city
Gotta leave the madness behindThis jungle world, gets so insane
Its a damed if you do
Damed if you don't
Kinda a deal in this crazy gameShining in the darkness
Brighter than the sun
You fall in me, and we are one
Everything in the world is right
The stars align whenever my body, is touching your body
When I got your skin on mine
Fear gives way to heaven inside me
Whenever my body is touching your bodyYour slight of hand
And your fire of lips
Like a man with a habit all I know is I gotta have it
The magic in your fingers tips
The things we do and the love we make
Underneath the covers, you carry me awayEverything in the world is right
The stars align whenever my body, is touching your body
When I got your skin on mine
Fear gives way to heaven inside me
Whenever my body is touching your body
They say nothing lasts forever
But we make that so untrue
When forevers come and gone I'lll still be holding on to youEverything in the world is right
The stars align whenever my body, is touching your body
When I got your skin on mine
Fear gives way to heaven inside me
Whenever my body is touching your body
