

# In the Morning

## Urban Mystic

Last night was beautiful experience, spiritual  
Like an angel spreading her wings, oh, have mercy  
Anticipating my whole life to wake up, show you the sunrise  
Shine down on you and me See you in the morning  
Look at you, layin' there  
Finally got you in my bed  
Only thought goin' through my head See you in the morning  
Sorry, I can't help but stare  
Soon as you turnin' over  
I'm gonna hold you closer In the morning, good morning  
Under the cover  
In the morning, good morning  
Under the cover  
Excuse me for speaking while I'm sleeping  
Baby, I'm dreaming about you grinding on me And right before the early rise, I start the  
countdown  
The bird sings, 'bout to go down, hello, you're up under me  
And I don't want no breakfast baby, you're everything that I need  
Tryin' to get you in my t-shirt before you go to work See you in the morning  
Look at you, lyin' there  
Finally got you in my bed  
Only thought goin' through my head See you in the morning  
Sorry, I can't help but stare  
Soon as you turnin' over  
I'm gonna hold you closer In the morning, good morning  
Under the cover  
In the morning, good morning  
Under the cover  
I sacrifice for you, girl  
I'm stuck on pleasing you  
It's the best part of the day  
To leave a smile up on your face So see you in the morning  
Look at you, layin' there  
Finally got you in my bed  
Only thought goin' through my head See you in the morning, oh girl  
Sorry, I can't help but stare  
Soon as you turnin' over  
I'm gonna hold you closer In the morning, good morning  
Under the cover  
In the morning, good morning  
Under the cover Under the covers, baby  
I'll see you in the morning, baby

Early in the morning, baby
