

# Heavenfaced

## The National

I could walk out, but I won't  
In my mind I am in your arms  
I wish someone'd take my place  
Can't face heaven all heavenfaced No one's careful all the time  
If you lose me I'm gonna die How completely high was I?  
I was off by a thousand miles  
Hit the ceiling, then you fall  
Things are tougher than we are  
I could walk out, but I won't  
In my mind I am in your arms  
I wish someone'd take my place  
Can't face heaven all heavenfaced Let's go wait out in the fields with the ones we love  
Let's go wait out in the fields with the ones we love  
Let's go wait out in the fields with the ones we love  
Let's go wait out in the fields with the ones we love She's a griever, I believe her  
It's not a fever, it's a freezer  
I believe her, I'm a griever now She's a griever, I believe her  
It's not a fever, it's a freezer  
I believe her, I'm a griever now  
Because we'll all arrive  
In heaven alive  
We'll all arrive  
Because we'll all arrive  
In heaven alive  
We'll all arrive
