Heavenfaced

The National

I could walk out, but I won't
In my mind I am in your arms
I wish someone'd take my place
Can't face heaven all heavenfacedNo one's careful all the time
If you lose me I'm gonna dieHow completely high was I?

I was off by a thousand miles
Hit the ceiling, then you fall
Things are tougher than we are
I could walk out, but I won't
In my mind I am in your arms
I wish someone'd take my place

Can't face heaven all heavenfacedLet's go wait out in the fields with the ones we love

Let's go wait out in the fields with the ones we love

Let's go wait out in the fields with the ones we love

Let's go wait out in the fields with the ones we loveShe's a griever, I believe her

It's not a fever, it's a freezer
I believe her, I'm a griever nowShe's a griever, I believe her
It's not a fever, it's a freezer
I believe her, I'm a griever now
Because we'll all arrive
In heaven alive

We'll all arrive Because we'll all arrive In heaven alive We'll all arrive
