

# King of Everything

## Boy George

Put down the booze  
Let the demons win the fight  
Dropped my gloves to the ground  
You know I'm sorry  
For the times I made you cry  
I made an art of letting you down I used to say  
It's only me I'm hurting  
But I saw you on the stairs  
The kid was crying  
And the dogs were howling  
And a siren filled the air  
What's the word on the street  
Have I lost my crown  
Or will I be king again  
What's the word on the street  
Have I lost my crown  
Or will I be king of everything Tempted myself time and time again  
Like self destruction was so cool  
I mocked your tears and I scarred your heart  
I blamed the past and I blamed you I used to say  
It's only me I'm hurting  
But I saw you on the stairs  
The kid was crying  
And the dogs were howling  
And a siren filled the air  
What's the word on the street  
Have I lost my crown  
Or will I be king again  
What's the word on the street  
Have I lost my crown  
Or will I be king of everything Ooh, will i be king of everything  
Ooh, will i be king... What's the word on the street  
Have I lost my crown  
Or will I be king again  
What's the word on the street  
Have I lost my crown... What's the word on the street  
Will i be king of everything  
What's the word on the street  
Yeaah... of everything... Standing outside of me, yeah  
Looking down
