

Stop the World

The Big Pink

Obsessed
With the shades of a ghost face
They don't belong here
We set them freeObsessed
With the feeling you held
I'll meet you down there
Send us to sleep[chorus]
To dream alone
Stop the world
For as long as we want
To love, to hold
To stop the world
Forever we'll sing along
Loveless
I suggest you go there
To magnetic zero
The world as you want itLoveless
I'm afraid to kiss again
We dream to remember
Send us to sleep
[chorus]Stop the world
Stop the world[chorus to fade]
