

# Infected Voice

## Sepultura

Fear ties you up  
And you don't grow  
Being wrong and lost  
No one admits the defeat  
Conscience is fair  
Unfaithful words  
Betrayal and greed  
Past thoughts to win alone  
Envy - still strong  
Hatred - still alive  
From beyond - an empty world  
Infected voice - a scream alone  
Infected voice!  
My throat is dry  
A last cry tries to escape  
Guilt and frustration  
No time to turn around  
Looking behind I'm not alone  
Are they friends or enemies  
Going insane without a cure  
Scarring my eyes, visions lost  
Remorse for the human race  
Fear of becoming them  
Envy the strongest feeling  
Hatred still in their heart  
Envy - still strong  
Hatred - still alive  
From beyond - an empty world  
Infected voice - a scream alone  
Infected voice!
