

# Falls On Me

## Fuel

I've seen you hanging 'round  
This darkness where I'm bound  
And this black hole I've dug for me  
And silently within  
With hands touching skin  
The shock breaks my disease  
And I can breathe  
And all of your weight, all you dream  
Falls on me, it falls on me  
And your beautiful sky, the light you bring  
Falls on me, it falls on me  
Your faith like the pain  
Draws me in again  
She washes all my wounds for me  
The darkness in my veins  
I never could explain  
And I wonder if you ever see  
Will you still believe  
And all of your weight, all you dream  
Falls on me, it falls on me  
And your beautiful sky, the light you bring  
Falls on me, it falls on me  
Am I that strong  
To carry on  
I might change your life  
I might save my world  
Could you save me?  
And all of your weight, all you dream  
Falls on me, it falls on me  
And your beautiful sky, the light you bring  
Falls on me, it falls on me  
And all of your weight, all you dream  
Falls on me, it falls on me  
And your beautiful sky, the light you bring  
Falls on me, it falls on me
