

Addictive

Faithless

[Chorus:]Change around the words that you say to suit me fine[Maxi Jazz:]Predictable
behavior, I crave ya

I'm driven, you're my only living savior

Sometimes I hate ya, but I'm whipped

Being led head down to the crypt

Restricted like a conscript you loved to bully

I place the blame with you fully[Chorus:]Change around the words that you said to suit me fine

Make them mine

[Maxi Jazz:]Listen,

Don't panic, there's only we two left on the planet

I can explain, I know it happened again

It's manic, I'm standing in the flame trying to fan it

You don't know what you got till it's gone

I'm at the edge of the night where nobody belong

Fingers are drumming

And that's where you come in[Chorus:]Change around the words that you say to suit me fine

Make them mineListen to the voice in your head

It makes no sense

Take a rest[Maxi Jazz:]I'm addicted

I have a demon for a wife

He delights in your pretty face and he hates my life

Takes notes on how to provoke past grief

Makes my teeth decay with the last of my self-belief

Feed all day from underneath like a thief

I'm left weak, barely able to speak

I see nothing but constant supply

I can read every look in your eyeI leave with a lie

Maybe our love will never die

Or, maybe it's the last time I make you cry

Make my appeal like the condemned

Let's go away for the weekend

Your life I will steal

And descend with it into the pitI'm addicted[Chorus:]Change around the words that you say to
suit me fine[Maxi Jazz:]I'm addicted[Chorus:]Listen to the voice in your head

It makes no sense

Take a rest[Maxi Jazz:]I have a little problem

I have a demon for a wife

He delights in your pretty face and he hates my life

Takes notes on how to provoke past grief

Makes my teeth decay with the last of my self-belief[Chorus:]Change around the words that

you say to suit me fine

Make them mineListen to the voice in your head

It makes no sense

Take a rest
