

Set Me Free (feat. Nile Rodgers & The Americanos)

Herizen Guardiola as Mylene Cruz

Come shine a light on (me)
Come set me (free)
Come shine a light on (me)
Come set me
These chains on me won't let me be
You've got the keys come rescue me
These chains on me won't let me be
You've got the keys come set me free
Come set me free
Come set me free
You've got the keys come rescue me
Come set me free
Come set me free
You've got the keys come rescue me
(Come rescue me)
Whoever says he's in the light and hates his brother is still in darkness
Still in darkness through the night
Above all we've gotta love each other deeply 'cause love, love, love covers a multitude of sins
My lips will shout for joy when I sing praise of you when I can feel you inside
And I will ascend above the highest of the clouds and make myself like the Most High
(Come rescue me)
Come rescue me
Come set me free
Come set me free
You've got the keys come rescue me
Come set me free
Come set me free
You've got the keys come rescue me
(Come rescue me)
(Come set me free)
And I will ascend above the highest of the clouds
And make myself
And make myself like the Most High
