Without You My Love (feat. Rico & Miella)

Seven Lions

I said I'd be right here I'd keep for all our years a ship through time Your eyes betray all your fears, flood with all our tears The tides were highI can't be without you my love

Oh I can't be without you my love

Without you my love (without you my love)

Without you my love (without you my love)

Oh I can't be without you my love

Without you my love (without you my love)

Without you my love (without you my love)

Oh I can't be without you my love

Oh I can't be without you my loveI can't be without you my love

Oh I can't be without you my love

Without you my love (without you my love)

Without you my love (without you my love)

Oh I can't be without you my love

Without you my love (without you my love)

Without you my love (without you my love)

Oh I can't be without you my love

Without you my love

Without you my love

Without you my love (Oh I)

Without you my love (Oh I)

Oh I can't be without you my love
