

Silk Pillows (feat. Akenya)

Smino

Sometimes I gotta get away, get away
Wake up at dawn with the main bang
I don't do
Sublime, I tell her straight away, straight away
D go deeper than an 808, boom boom boom
Kush smell like chitterlangs chitter-chat
With her little friend on my dang-a-lang, pitter-pat
Pump ya lil breaks with the Bickerang
I don't never entertain on my soul
I'm allergic to negativity, a-choo, look at you
Sexy when you mad though, ooo, look at you
Fuck her like I'm pissed off 'til I get soft
Take a little pit stop, intermission
Shawty popping, she a wheel on the screw
We can do whatever you wanna do
Running off fumes and a few brews in the room
Blkswn born on BlkJptr grew
BlkWings, soarin'
I might shit on the roof
Baby, come fly with me
Let's oochie wally in a Maserati
Shit, what's time if it ain't quality?
Lay the silk pillows down on the bed for your head
You a vet? I'm a dog
Trim me up, roll the meds
Silk pillows keep my head smooth
Sipping some E&J
And my niggas
Hit me up like, "What's the move?"
It's just like these days
Fuck the function
I'd rather be with you
Sipping some E&J
And my niggas
Hit me up like, "What's the move?"
It's just like these days
Fuck the function
I'd rather be with you
I'm gone off your energy, my inner chi
So at ease whenever we in the sheets
Beat it up like it was your enemy
Then post up and chill for infinity

Lay me down right, fuck the daylight
Fuckin' 'til the day break in the moonlight
Moanin' and sentimental giggles
And reminiscing as the remy trickles
Slowly down the hollow of my throat
Hold me like your only tomorrow
Show me I'm the one you would die for
I'll be everything you could ask for
Just you and me, babe
Stay here with me, babe
Silkk like my shocka, poppa
Silk like vanilla waves
Your entity, babe
My remedy, babe
Silk like "you wanna get freaky with me"
Mentally, spiritually, what you waiting on? Silk pillows keep my head smooth
Sipping some E&J
And my niggas
Hit me up like, "What's the move?"
It's just like these days
Fuck the function
I'd rather be with you
Sipping some E&J
And my niggas
Hit me up like, "What's the move?"
It's just like these days
Fuck the function
I'd rather be with you
