Only You Can Rock Me (Live In Cleveland, 1978)

UFO

Who's taking time out, we'll take a shine out We're the boys we got nothing to lose I've had enough now of school and stuff now If you ain't with us then it's just bad newsOnly you can rock me rock me Come on back now d o it again Only you can rock me, rock me Kicking out just like a hurrican3We can't wait from day to day Cuz we've got something to say We can't wait from day to day Cuz we've got something to sayCome on the street now on every corner Breaking out and we're doing what we want to Just like a jewel shines in the night She burns so hot out under the street light We are here and there's no end We keep on coming again We are here and there's no end We just keep coming againInstrumentalWho's taking time out, we take a shine out We're the boys we got nothing to lose I've had enough now of schoolAnd stuff now If you ain't with us then it's just bad newsOnly you can rock me, rock me Come on back now, do it again Only you can rock me, rock me Kickin' out just like a hurricaneWe can't wait from day to day Cuz we've got something to say We are here and there's no end We'll keep on coming again We can't wait from day to day Cuz we've got something to say We are here and there's no end We'll keep on coming again
