

# Feels Like Home

[Tyler Rich](#)

Some outta tune singer sings songs we grew up on  
Lines fly like darts as some guy tries his luck on  
The prettiest girl he ain't got a shot with  
It feels like home This dust on the bottle ain't David Lee Murphy  
I'm two for one drinking, I ain't even thirsty  
In this kinda crowd, there ain't no one alone  
It feels like home I came here tonight to forget why I'm here  
If you're with me then why don't you raise up a beer  
Dance with a stranger that you'd like to know  
Cause it feels like home  
This hole in the wall has a hell of a view  
If you order one more, you'll see it too  
When they last call the lights  
No you won't wanna go  
Cause it feels like home When whiskey and want to get stirred up together  
With make ups and break ups  
And I swear I'll be betters  
Pull up a seat  
Enjoy the free show  
It feels like home I came here tonight to forget why I'm here  
If you're with me then why don't you raise up a beer  
Dance with a stranger that you'd like to know  
Cause it feels like home  
This hole in the wall has a hell of a view  
If you order one more, you'll see it too  
When they last call the lights  
No you won't wanna go  
Cause it feels like home I came here tonight to forget why I'm here  
If you're with me then why don't you raise up your beer  
Dance with a stranger that you'd like to know  
Cause it feels like home This hole in the wall has a hell of a view  
If you order one more, you'll see it too  
When they last call the lights  
No you won't wanna go  
Cause it feels like home  
Sometimes I wish that these doors couldn't close  
Cause it feels like home So love who you love and smoke what you smoke  
Cause it feels like home
