

Learn to Fly

Procol Harum

(G.Brooker / K.Reid / M.Fisher) You and me got a chance to make things right

The writing... the writing's on the wall

You and me got a chance to turn things 'round

We got no time... the future's slipping

through our hands Learn to fly

Where eagles only dare to try

We're on the wing

We dare to win

We see the future and we're gonna make it

Learn to live

You know you got so much to give

It's in the air

it's everywhere

We got a vision and we're gonna claim it You and me we can't turn back at all

The die is cast... (you know) the deal is done

you and me we knew this day would come

And now it's here... the journey's just begun

Learn to fly

Where eagles only dare to try

We're on the wing

We dare to win

We see the future and we're gonna make it

Learn to live

You know you got so much to give

It's in the air

it's everywhere

We got a vision and we're gonna claim it
