

# Live By the Sword

Jill Phillips

I don't see why I don't see what bothers me  
And I don't know why I don't know what won't let me go  
I should have listened to myself when I had it down  
This dose of my own medicine is too big to swallow now  
This is the time when I find what's  
inside of me  
This is the time when I decide what I believe  
If I wanna be real in this world  
Then I have to realize  
If I am gonna live by the sword  
Then I'm gonna have to die by the sword  
It's easy to be calm when there's no crashing tide  
It's easy to be quiet when it's loud outside  
It's easy to be humble when you're glorified  
But now I'm out here on my own and screaming from inside  
This is the time when I find what's inside of me  
This is the time when I decide what I believe  
If I wanna be real in this world  
Then I have to realize  
If I am gonna live by the sword  
Then I'm gonna have to die by the sword  
But you stripped me down to basics  
You left my heart exposed  
There is no pride in times like this  
No one said it was easy  
And no one said it was fair  
But no one is happy when it is  
I need your loving arms to carry me  
When I look in the mirror and I don't like what I see  
I know you know what I desire to do  
So help me follow even when it's not easy to  
If I wanna be real in this world  
Then I have to realize  
If I am gonna live by the sword  
Then I'm gonna have to die  
If I wanna be real in this world  
Then I have to realize  
If I am gonna live by the sword  
Then I'm gonna have to die  
I'm gonna have to die  
I'm gonna die by the sword
