Live By the Sword

Jill Phillips

I don? t see why I don? t see what bothers me
And I don? t know why I don? t know what won? t let me go
I should have listened to myself when I had it down
This dose of my own medicine is too big to swallow nowThis is the time when I find what? s
inside of me

This is the time when I decide what I believeIf I wanna be real in this world

Then I have to realize

If I am gonna live by the sword

Then I'm gonna have to die by the swordIt? s easy to be calm when there? s no crashing tide It? s easy to be quiet when it? s loud outside

It? s easy to be humble when you? re glorified

But now I? m out here on my own and screaming from inside

This is the time when I find what? s inside of me

This is the time when I decide what I believeIf I wanna be real in this world

Then I have to realize

If I am gonna live by the sword

Then I'm gonna have to die by the swordBut you stripped me down to basics

You left my heart exposed

There is no pride in times like this No one said it was easy

And no one said it was fair

But no one is happy when it is I need your loving arms to carry me

When I look in the mirror and I don? t like what I see

I know you know what I desire to do

So help me follow even when it? s not easy to

If I wanna be real in this world

Then I have to realize

If I am gonna live by the sword

Then I'm gonna have to dieIf I wanna be real in this world

Then I have to realize

If I am gonna live by the sword

Then I'm gonna have to dieI'm gonna have to die

I'm gonna die by the sword
