

Amber

Electric Guest

Amber, what will become?
I see the fire, you call the sun
Amber, you're just a child
Dressed like a father without the smile
Amber, they broke the vow
Hoping to hold you, forgotten how
Amber, Amber, Amber
Piece of the whole
The light that's inside you, starting to glow
Amber, Amber, Amber
(The only thing you know)
(Everyone hates the calling home)
Amber, Amber, Amber
(We all will have to go)
(Even when love has fallen home)
Amber, when will you tire
Poor son and limbs, may break the wire
Amber (Amber), I hear the sea
Stormin' inside you, unspoken plea
Amber (Amber), the blue above
Cyprus and elm answer to none
Amber, Amber, Amber
Piece of the whole
