

The Jungle (Live at I-Beam SF, 1986)

Faith No More

Well, just follow your heart
Man oh man
Try and see, if you can
Ha Ha
Jungle sounds great
Lots of scary noise
Don't deter us from our journey onward Hey man, let your spirit go
To the full extent of the meaning
He said, "And follow me to the deepest part of the jungle
Where it is always dark and wet and warm
To the sacred part." Well, just follow your heart
Man oh man
Try and see, if you can
Ha Ha
Jungle sounds great
Lots of scary noises
Don't deter us from our journey onward
We pushed and followed
Only our deepest, hidden senses, senses
And exposed to the elements
That lie within
