## Hello Like Before

## **Bill Withers**

Hello like before I'd never come here If I'd known that you were here I must admit though That's it's nice to see you, dear You look like you've been doing wellHello like before I hope we've grown 'Cause we were only children then For laughs I guess we both can say 'I knew YOU when' But then again, that's kiss and tell Hello like before I guess it's different 'Cause we know each other now I guess I've always known We'd meet again somehow So THEN it might as well be now
