

# Come With Me

## Echosmith

Background noise  
Are all the things that get in the way  
I had no choice  
You came to me  
I took you around  
But it didn't matter where we were going  
You're the only sound that I ever want to hear Come with me  
And I'll take you away if you let me  
Stay with me  
And I'll cover your soul with my body  
Give me your heart  
And I'll give you my love  
It's a work of art  
When you shine like the sun  
So give your heart to me  
Give your heart to me  
Oh carefully, you came to me  
Ever so gently  
Tonight you look lovely  
Let me wrap my arms around you  
Let me take you home  
I want you to myself  
You're the only thing that I ever need to know Come with me  
And I'll take you away if you let me  
Stay with me  
And I'll cover your soul with my body  
Give me your heart  
And I'll give you my love  
It's a work of art  
When you shine like the sun  
So give your heart to me  
And all the stars tonight  
Are shining in your eyes  
Our love is looking so bright  
Let's take a chance and see  
A chance of what could be  
At love and running so free  
So free  
So free, free Come with me  
And I'll take you away if you let me  
Stay with me  
And I'll cover your soul with my body

Give me your heart  
And I'll give you my love  
It's a work of art  
When you shine like the sun  
So give your heart to me
